

HOMEMADE • FRESH

HEATING INSTRUCTIONS

Remove the Runza® paper from each sandwich while frozen.

CONVENTIONAL
OVEN:

- 1 Pre-heat oven to 325°.*
- 2 Wrap each frozen sandwich in aluminum foil or place in a pan with a cover.
Optional: spread butter over the top of the sandwiches before you wrap/cover.
- 3 Bake for approximately 45 minutes.*

MICROWAVE:

- 1 Wrap each frozen sandwich in wax paper.
- 2 Heat for 2 minutes on high (time may vary depending on the individual microwave).

Frozen Runza® Sandwiches should be stored in the freezer and are best if consumed within 1 month. Maximum freezer time is 3 months. Baked Runza® Sandwiches should be refrigerated and consumed within 3 days.

*For high elevations, increase oven temperature 25-50 degrees. Baking time may need to be decreased.

Runza® Sandwiches are not to be resold and are for your consumption only.

Runza® is a registered trade/service mark of Runza National, Inc. © 2021 Runza National, Inc.

As you know, Runza® Sandwiches are lovingly made from scratch, each day, at every Runza® Restaurant location.

The Runza® Sandwiches you are about to enjoy were handcrafted by our crew at a Runza® restaurant in Lincoln, NE.

We mix flour, water and yeast to make the dough. We slice whole onions and heads of cabbage before adding them to simmering ground beef and secret spices. Your Runza® Sandwiches are then hand assembled and baked to perfection before being shipped to you.

Runza® Sandwiches are made using the same recipe from 1949 when the first Runza® opened - using fresh, quality ingredients. Over 70 years ago, a Runza® Sandwich took two hours to make. Today, nothing has changed.

ENJOY!
