

When your order arrives your Runza® sandwiches may feel partially frozen or soft to the touch. And that's okay. Just put them in your fridge or freezer right away.

FROZEN HEATING INSTRUCTIONS

Remove the Runza® paper from each sandwich while frozen.

CONVENTIONAL OVEN:

- ① Pre-heat oven to 325°.*
- ② Wrap each frozen sandwich in aluminum foil or place in a pan with a cover.
Optional: spread butter over the top of the sandwiches before you wrap/cover.
- ③ Bake for approximately 45 minutes.*

MICROWAVE:

- ① Wrap each frozen sandwich in wax paper.
- ② Heat for 2 minutes on high (time may vary depending on the individual microwave).

Heat inside to 165°. *For high elevations, increase oven temperature 25-50 degrees. Baking time may need to be decreased, and will vary by oven.

REFRIGERATED HEATING INSTRUCTIONS

Remove the Runza® paper from each sandwich.

CONVENTIONAL OVEN:

- ① Pre-heat oven to 325°.*
- ② Wrap each sandwich in aluminum foil or place in a pan with a cover.
Optional: spread butter over the top of the sandwiches before you wrap/cover.
- ③ Bake for approximately 25 minutes.*

MICROWAVE:

- ① Wrap each sandwich in wax paper.
- ② Heat for 1 minute on high (time may vary depending on the individual microwave).

Heat inside to 165°. *For high elevations, increase oven temperature 25-50 degrees. Baking time may need to be decreased, and will vary by oven.

Runza® sandwiches are best if consumed within 1 month (frozen) or 3 days (refrigerated). Maximum freezer time is 3 months.

Runza® sandwiches are not to be resold and are for your consumption only.
